

November Early 5's Newsletter

Hello! Your child and I sure had a fun time learning about Mexico in October. I have a lot of exciting and educational activities planned for our November country of the month: China! If you have ever visited or lived in this country, and would like to visit our class and tell us about it, that would be great.

We will be focusing on the following letters, number, and color for November:

Letters: I, T, V

Number: 6

Color: brown

Some of the Chinese crafts we'll be making this month are a Chinese dragon, lantern, and a Circle panda. We'll also try and learn to write some Chinese numbers, and participate in a Chinese tangrams activity.

If you would ever like to come in and help with art, you are more than welcome!

Please continue to work with your child on letter and number recognition. This is something you can do when your in the car together (point out signs, etc.), or at the store. If you make this fun, your child will be encouraged to learn.

Thanks for sharing your child with me. I look forward to another month learning with them. Have a great Thanksgiving!

God bless,

Mrs. Nelson
