

July 2006 Newsletter
Mrs. Stuart & Mrs. Feagle

Welcome everyone! We are so happy to see you in the summer. We are going to have a wonderful time this summer together. We have so many fun and educational activities scheduled.

Remember, every Friday is Water Play Day!! So, that means you need to bring your bathing suit and towel in a plastic bag. You may also wear a hat and sunglasses if you wish. We need everyone's sunscreen turned in by the next school day if you haven't done so yet. The permission forms have to be signed and turned in by the next school day also.

Show and Tell Days: During the summer program, your child is welcome to bring in one ocean theme item to show the class. You and your child may choose the day to bring the item in. If we have any birthdays in the month of July, please let us know if you would like to send in a special birthday snack for the day.

This month we will be discussing the holiday, July 4th, fireworks, aquariums, oceans, jellyfish, octopus, starfish, crabs, seahorses and buried treasure. We will include the alphabet, numbers, colors, and shapes on a daily basis. The children will have many opportunities to read ocean theme books and learn about many different animals that live in the sea. We are having our July ice cream party on Monday, July 31st.

Please contact us about any questions or concerns you may have. 233-4771
