

February 2012 Newsletter

Mrs. Wynkoop & Mrs. Diehl

Happy February! We are hoping that this newsletter finds you and your families healthy and warm! Spring is right around the corner.

I will be continuing to assess your children this month. It has been coming along nicely and I am impressed with how far they have come. Conferences will be in March.

We will be discussing Groundhog Day, President's Day, Valentine's Day, Love, patterns, junk food, healthy hearts and dental health. We will have a visit from Small Smiles Dental on **Thursday, February 9th at 10am**. They will be coming into our classroom to talk with your children about dental health. We will also be having a science experiment this month with snow/ice & water.

Our Valentine Party will be on **Tuesday, February 14th at 11am**. The children will be exchanging Valentines. **Please have or help your child sign their name to each valentine. Please DO NOT address these to individual students.**

This helps us in the distribution process. **We have 19 children in our class.**

*****Please remember to not send in any chocolate treats or any food with nuts due to allergies. Thank you!**

Dates to Remember:

Tuesday, February 7th: Please have your child wear pink and bring a pink show n tell item.

Thursday, February 9th: Dental Visit at 10 am

Tuesday, Feb 14th: Valentine Party at 11 am Bring Valentine cards to exchange

Thank you for all you do!! I want to send a BIG thank you out to my parents who make play-dough each month for our class & those who send in extra items for our school and volunteer in and outside the classroom! If you have any questions or concerns please call 233-4771 or email me at nwynkoop4@gmail.com.

Love,
Mrs. Wynkoop &
Mrs. Diehl
